

Q. Without actually defining the routes in you Node.js server code, serve any 3 CC/Assignments that has been done previously. All of them must use HTML, CSS and JS. Also Host this CC onto Heroku.

Note:

1. In the homepage/root route, you should display a list with link of 3 CC/Assignments.
2. Each individual CC/Assignment must have a link to go back to the homepage.
3. None of the URL should include '.html'.

Marking Scheme

[Correct code execution: 10, Correct Approach: 2, Hosted on Heroku: 3]
